Students Living at Spring Valley Student Farm Can:

- Learn about sustainable farming while living in on-campus housing with a community of students from diverse academic departments.
- Grow and provide vegetables, herbs, flowers and small fruits, grown using organic methods, to UConn Department of Dining Services select restaurants, dining halls and seasonal on-campus Farm Fresh Market.
- Share their individual and collective knowledge with the greater UConn community through the EcoHouse Learning Community and multiple on-campus collaborations.
- Lead Tours and host volunteers at the Farm where students and the community come together to experience hands-on farming.
- Stay Local and Dig Deeper with our 17 credit Rural Semester immersion program as part of the Environmental Studies major.

Any Undergraduate Student Can:

- Volunteer weekly at volunteer days, open to all students and greater community members, on Friday during the semester or Tuesday during the summer.
- Enroll in an Internship or Independent Study, for variable credit, through UConn CAHN, Plant Science and Landscape Architecture or Sociology departments.
- Get involved in ongoing hands-on real life projects:
  - Aquaponic Food Production
  - Solar Thermal Greenhouse Heating
  - Solar Photovoltaic Electricity Production
  - Food Waste to Energy and Carbon Sequestration
  - Soil Health study
  - Air Quality study
  - Beekeeping
- Apply to work and/or live at the Farm for the summer with part-time summer student farmer employment available through Department of Dining Services.

Spring Valley Student Farm is located at 104 Spring Manor Road, Storrs-Mansfield, 06278 or GPS 1327 Stafford Road, Mansfield. Contact julia.cartabiano@uconn.edu www.dining.uconn.edu/spring-valley-farm
